HOW TO DRESS ACCORDING TO YOUR BODY SHAPE?

Body shape basically refers to your body shape and measurements. So, while measuring your bust, waist, and hips you can easily find your body shape. There is no 'best' or 'worst' body shape, every silhouette is perfect in its own way.

But there are some mistakes to avoid while dressing up since the human eye is naturally drawn to symmetrical things. So today, we will talk about the 4 different body types and how you can edit your outfit to highlight your figure

APPLE BODY SHAPE

The apple body shape is characterized by narrow hips, large bust and a full midsection. This body type needs to balance the look at the waist-line to have a visual symmetry. Therefore, choosing waist belts or waist knotted dresses or blouses would be the perfect choice. As an additional tip, dark colors give the illusion of looking thinner, so using dark colored tops, preferably with a V neck line along with wide leg high waisted bottoms are the best choice for an apple-shaped body.

15 ITEMS YOU MUST HAVE IN YOUR CLOSET

We often hear people say “this is a fashion basic”...What is a fashion basic anyway? It’s timeless pieces that never go out of trend, they can be worn ANYTIME and ANYWHERE. Your fashion basics are the spine of your wardrobe. Therefore, it is best to invest in good quality basics because you’re going to wear them very often and they’re gonna stay in your closet for a very long time. After all, you’re going to invest a budget on the long term and you’re going to save a lot more money eventually. Another tip...investing in basics helps you avoid impulsive buying because most of us tend to buy eccentric or very different items that end up filling our closet with mismatched clothes that go out of trend in the blink of an eye. Of course you can allow yourself to buy special items to tweak your style, but the idea is far from having a boring closet, you can take basic items to a whole new level just by adding the right accessories.

Here is the list of the 15 must-have items your closet needs:
